The Olympic torch in front of the entrance symbolizes the focus of this school: the Munich high school that will be attended by up to 1,000 students includes one of Germany's 43 elite sports schools. In addition to the academic education, the school offers special sports activities for each year. All offers are combined under the roof of innovative architecture that is exemplary of the "Munich educational building model", offering a comfortable light-flooded well-equipped framework for learning and sports activities.
